THE WINDOWS AT QUILLON'S

MURDER MYSTERY ADVENT CALENDAR

2,400 SHOPPERS · 1 KILLER · OPEN ONE WINDOW A DAY / 2,400 SHOPPERS

BEFORE YOU BEGIN

How to play

What this is. A murder mystery in 24 windows. Each day from 1 to 24 December you open one window: a page with one new piece of evidence. Day 1 sets the scene, Day 2 is the Lantern Register of 2,400 shoppers, and Days 3 to 23 each rule some of them out. On Christmas Eve one pass is left.

Setting up. Print the Set-up pages and the 24 windows. Fold each window into its own envelope (there is a template, or use any envelopes) and stick on the day numbers. On a tablet, just tap today's window on the calendar page.

Each day. Open today's window, read the evidence and work out what it means. Then go through the shoppers who are still in on the register and cross out everyone who doesn't fit. The first few days take 20–30 minutes; later days take 5–10.

Who plays. One detective on their own, or up to four working together. Split the register between you and compare notes.

Check-ins. Windows 6, 12 and 18 tell you how many passes should still be in, so you can catch a slip early.

Stuck?. The hint pages at the back give three levels of help for every window. Each level sits on its own pages, so you only see what you ask for.

The last window. On 24 December, open the Grand Window. Use the Sealed Check to test your answer without spoilers, then open the Envelope (the separate solution file).

Printing tip. The inside pages are mostly white to save ink; each window has one small night scene. Window 2, the register, is the thick one: print it single- or double-sided, black and white is fine. A highlighter and a pencil are all you need.

House rules

Every window uses the words below in exactly this sense. If a window seems to have two meanings, this page decides.

Letters	Count letters only. Every name in the register is a single word with no spaces, hyphens or apostrophes.
Vowels	A, E, I, O and U. In this case Y is never a vowel.
Capital or small	A letter counts whether it is a capital or not: Ellery contains the letter E twice, Lacey once.
Times	All times are 24-hour clock on Christmas Eve, real time unless a window says otherwise. "18:55 or earlier" includes 18:55. A range such as 17:00–17:40 includes both ends.
Minutes	The minutes of 18:07 are 07.
Pass digits	Read all four digits as printed, zeros included: pass 0472 has the digits 0, 4, 7 and 2, which add up to 13.
Double letter	The same letter twice, side by side: the LL in Wallace, the NN in Tennant.
Floors	The store has five floors (Lower Ground, Ground, First, Second, Third), two half-landings between floors (the Half Landing and the Clock Gallery) and the Roof Terrace on top. The store plan shows where every department is.
Tram stops	A stop belongs to the district it is drawn in on the city map.

WINDOW 1 OF 24

1 DECEMBER

The Case

Every December, Quillon & Daughters on Lantern Street, the grandest department store in Vellmouth, unveils one new Christmas window each evening. Twenty-four windows, one a day, and on Christmas Eve, at half past nine, the curtain rises on the Grand Window.

Christmas Eve is Lantern Night. The store stays open late, the brass band plays on the steps, and every shopper is given a numbered Lantern Pass at the door. The pass is scanned on the way in and used to pay at every till. That night 2,400 passes were handed out.

At 21:20, ten minutes before the curtain, Lark Emery, the junior window dresser, found Teodor Brann in the window workshop on the Third Floor. Teodor had dressed every window at Quillon's for thirty-one years. He was slumped over his sketchbook, and beside him stood a striped paper cup of cocoa that had been laced with something that was never on any menu.

Inspector Rhea Linfoot sealed what she found into twenty-four envelopes, in the order she found it. Open one window a day. By Christmas Eve, one Lantern Pass will be left.

What we know for certain

- * The Lantern Register lists every pass issued on Lantern Night exactly once: passes 0001–2400, no gaps, and no two shoppers share a full name.
- * Time in is when the pass was scanned at the door. Door is where it was scanned: the Arcade Door, the Clock Door, the Tram Door or the Garden Door (the register prints the first word only).
- * Home district is the district written on the pass form. Every district is on the city map.
- * Last till is the department where the pass made its final purchase of the night. Every pass bought at least one thing. Department numbers are on the store plan.
- * Whoever carried the striped cup of cocoa up to Teodor bought it with their own pass, and it was their last purchase of the night.
- * Only one shopper wore a little brass magpie brooch on her coat collar. Every witness who mentions the brooch was looking at the killer.

Teodor's letter

21 December

Dear Inspector Linfoot,

You will think me a foolish old man. For three weeks someone has been taking the real stones out of the necklace in my Jewel Window and leaving paste behind. Nobody else has noticed. Glass and diamonds look the same from the pavement, but they do not look the same to me.

Each time, I have seen the same thing on the shop floor: a little brass magpie, pinned to a coat collar. I have never seen the face above it. I only ever see the brooch catch the light.

I have told nobody at Quillon's. On Christmas Eve, when the curtain rises on the Grand Window, I mean to show the whole of Lantern Street what I have seen. Until then I am putting it all into my windows, one a day, where a careful eye can read it.

If anything should happen to me before then, look at the windows.

Yours, with apologies for the fuss,

Teodor Brann, Window Dresser

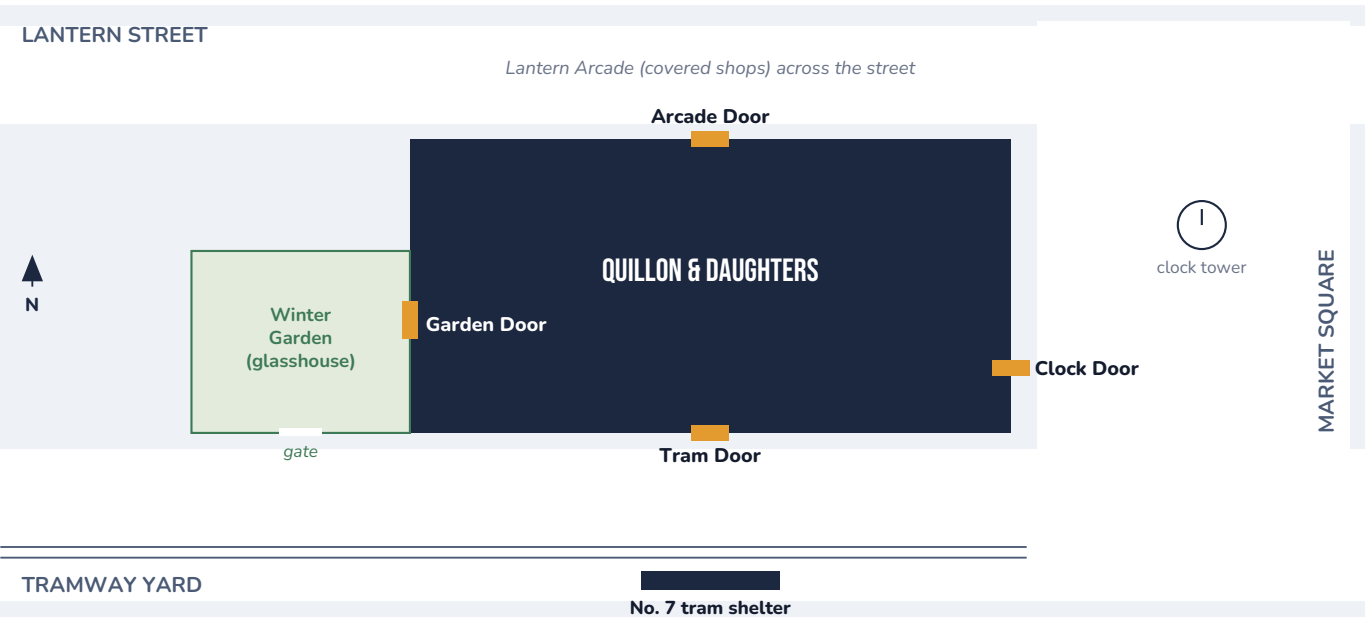

Teodor posted this on 21 December. It reached me on the 27th, three days after we found him. — R.L.

The store plan

Every department has a till with the same number. Levels from the bottom up; the Half Landing and the Clock Gallery are half-levels between floors. The street plan below shows the four doors.

The Lantern Register

Every Lantern Pass scanned at the doors on Christmas Eve, in the order it was scanned: 2,400 shoppers, one line each. Keep this window out of its envelope from now on: every window from tomorrow is checked against it.

Time in	when the pass was scanned at the door (24-hour clock)
Pass	pass number, 0001–2400
First name, Surname	as written on the pass form
Home district	as written on the pass form; every district is on the city map (Window 6)
Door	Arcade, Clock, Tram or Garden (the Arcade Door, Clock Door, Tram Door, Garden Door)
Last till	the department number of the pass's final purchase (store plan, Window 1)
Box	an empty box for your own ticks

THE BAND ON THE STEPS

First set	17:00 – 17:40
Mince pies for the band	17:40 – 18:20
Second set	18:20 – 19:05
Tea in the staff canteen	19:05 – 19:50
Third set	19:50 – 20:30
Instruments packed away	from 20:30

STATEMENT – THE DOORMAN

Albie Crane: “I couldn’t tell you which door she used — I go up and down the steps all night — but I remember the brass magpie on her collar going past me while the band was playing. I remember because the big drum made her jump.”

TODAY'S QUESTION

The doorman says the lady with the magpie brooch came in while the band was playing. When could she have come in?

Snow on Tramway Yard

STATEMENT – THE NEWSPAPER STAND AT THE TRAM SHELTER

Pim Haskett: “She got down off the No. 7 at the shelter opposite the store, bought an evening paper and crossed Tramway Yard. Then I lost her in the snow. She went in either straight across, or through the Winter Garden — one or the other, I’d swear to that much.”

The street plan is in Window 1.

WINDOW 24 OF 24

24 DECEMBER

The Grand Window

21:30, Christmas Eve. The brass band played a fanfare, the curtain rose, and Lantern Street saw an empty window. Teodor's Grand Window was never finished.

His sketchbook was. On its last page he had drawn it: snow, a single gloved hand holding out a necklace, and a magpie taking it. 'For the one who has been taking my stones,' he wrote underneath. 'Everyone on Lantern Street will know her by the brooch.'

If you have opened every window, one Lantern Pass is left in the register. That pass belongs to the lady with the brass magpie.

Turn the page for the Sealed Check: it tells you whether you are right without printing her name anywhere in this calendar. Then open the Envelope, the separate solution file, to read how it happened.

WINDOW 24 · CONTINUED

The Sealed Check

Found your one remaining pass? Do this sum with its details (a phone calculator is fine). It confirms the answer without printing the killer's name anywhere in this calendar.

- 1 Take the pass number and multiply it by 7.
- 2 Count the letters in the first name and in the surname, and add both counts to the result.
- 3 Look at the last three digits of the total.

Pass number $\times 7 =$

+ letters in first name =

+ letters in surname =

you have found her. Open the Envelope to read how it happened.

Not a match? Somewhere a pass was kept or crossed out by mistake. The hints at the back show you which window to look at again, and the check-ins on Windows 6, 12 and 18 help you find where.

Level 3 — Nearly the answer · page 87

HINTS

Level 1 — A gentle nudge

- Window 3** The doorman can't give a time, but he says what was happening on the steps when she came in.
- Window 4** Find the tram shelter on the street plan in Window 1, then follow both ways in that the news vendor describes. Each way ends at a door.
- Window 5** Find the Toy Hall on the store plan. What is higher up in the building?
- Window 6** Find Route 7 on the city map and follow it from Vell Bridge to Gasworks. Which stops lie between those two?
- Window 7** Look only at the first name.
- Window 8** The wrapping desk has two racks. Which one did her parcel go in?
- Window 9** This one uses the Pass column.
- Window 10** Read the store guide on the notice board. Whose clock is the time 'seven o'clock' measured by?
- Window 11** Find Vell Park on the city map. Which districts are next to it?
- Window 12** Remember the house rule about the striped cup: it was her last purchase of the night.
- Window 13** Look only at the last letter of the first name.
- Window 14** Add up the four digits of the pass number, zeros included.
- Window 15** Look at the surname letter by letter.
- Window 16** Picture the little clock face on the door stamp. Which minutes point into its lower half?
- Window 17** Count the letters in both names and compare the two counts.
- Window 18** Read all four digits of the pass number as printed.
- Window 19** Count the letters of the first name.
- Window 20** The printer's note tells you which numbers were printed on which colour.
- Window 21** Look for the letter E in the surname, capital or small.
- Window 22** Look only at the first letter of each name.

HINTS (CONTINUED)

Level 1 — A gentle nudge

Window 23

Count the letters of the first name and the surname, then add them together.

HINTS

Level 2 — A stronger push

- Window 3** The band's programme shows three sets with breaks between them. Only the sets count, and the first and last minutes of each set count too.
- Window 4** Straight across Tramway Yard is one door; through the Winter Garden glasshouse is another. She used one of those two, and the newsvendor can't say which, so keep both.
- Window 5** Higher up than the Second Floor means everything above it on the plan, including the levels between floors and the roof. She never came back down, so her last till is up there.
- Window 6** 'Between' means the stops in the middle, not Vell Bridge or Gasworks themselves. Each stop lies in a district.
- Window 7** Capital or small makes no difference: Rita and Laura both contain an R.
- Window 8** The second rack is N to Z, and parcels are filed by surname. Look at the first letter of the surname only.
- Window 9** Odd numbers end in 1, 3, 5, 7 or 9. Pass 0472 is even.
- Window 10** The gallery clocks run five minutes fast, so seven o'clock by them is earlier in real time. She was already in the store by then.
- Window 11** Next to the park means sharing a side with it, not just touching a corner. There are four.
- Window 12** The store guide names the only four counters that serve hot drinks in striped cups. Tins and powder don't come in cups.
- Window 13** A, E, I, O and U are vowels; Y never counts. Laura and Annie end on a vowel; Henry and Mabel don't.
- Window 14** Pass 0472: $0 + 4 + 7 + 2 = 13$, more than ten. Pass 2310: $2 + 3 + 1 + 0 = 6$, not more than ten. Exactly ten is not more than ten.
- Window 15** A double letter is the same letter twice, side by side: the LL in Wallace counts, the two Rs in Carrier count, but the two Es in Hebden don't (they're apart). Capital or small makes no difference.
- Window 16** The lower half of a clock face is everything below a line from 9 to 3. The hand points there from a quarter past to a quarter to.

HINTS (CONTINUED)

Level 2 — A stronger push

- Window 17** More letters means strictly more: Ruth (4) and Barlow (6) count; Ruth and Gale (4 and 4) don't.
- Window 18** All different means no digit appears twice: 4825 qualifies, 1301 doesn't (two 1s), 0402 doesn't (two 0s).
- Window 19** Exactly six letters: Marina and Gertie count; Clara (5) and Harriet (7) don't.
- Window 20** Green passes were 0001 to 1200, red passes 1201 to 2400.
- Window 21** Count every E: Lacey has one, Ellery has two, Pollard has none. Only exactly one counts.
- Window 22** Initials are the first letters of the first name and the surname. Sally Sutton has the same initial twice; Maria Pell doesn't.
- Window 23** Odd numbers end in 1, 3, 5, 7 or 9. Mary Pell has $4 + 4 = 8$ letters, which is even.

HINTS

Level 3 — Nearly the answer

- Window 3** The band played 17:00–17:40, 18:20–19:05 and 19:50–20:30. Cross out every pass whose time in is outside all three sets. The register is sorted by time, so whole pages go at once.

- Window 12** Her last till is 9, 20, 22 or 24. Cross out every pass whose last till is any other number.
- Window 13** Cross out every pass whose first name ends with any letter other than A, E, I, O or U.
- Window 14** Cross out every pass whose four digits add up to 10 or less.
- Window 15** Cross out every pass whose surname has no letter written twice side by side.
- Window 16** The minutes run from 15 to 45. Cross out every pass whose time in has minutes 00 to 14 or 46 to 59.
- Window 17** Cross out every pass whose surname has the same number of letters as the first name, or fewer.
- Window 18** Cross out every pass whose number uses any digit more than once.
- Window 19** Cross out every pass whose first name has fewer or more than six letters.
- Window 20** Cross out every pass numbered 1200 or lower.

Thank you, detective

Thank you for spending Advent at Quillon's. We hope the windows, the snow and the brass magpie kept you guessing until Christmas Eve.

Every QuietClueCo case is written and drawn by hand and checked by a computer program before it reaches you. The program confirms that there is exactly one answer, that every window is needed, and that the answer does not change if a window is read in a slightly different way, including the words on the plans and maps such as straight, through, higher, between and next to.
