BEFORE YOU BEGIN

How to play

What you need. A highlighter or pencil, this case file printed (or open in Goodnotes or Notability), and a mug of something warm.

Who plays. One detective on their own, or up to four working together. Split the Visitor Log between you and compare notes.

How long. Around 90 to 150 minutes, depending on how you split the work.

How it works. Read the case and the six documents. Clues 1–12 in the Inspector’s Notebook are stated outright. Evidence A–F is hidden in the documents: work out what each one tells you. Every clue and every piece of evidence rules visitors out. Apply them to the Visitor Log in any order until one visitor is left.

A tip. The Visitor Log is sorted by entry time and split into hourly chapters. Some evidence lets you cross out whole pages at once.

Stuck?. The hint pages at the back give three levels of help for every clue: a nudge, a stronger push and nearly the answer. Each level sits on its own pages, so you only see what you ask for.

Checking your answer. Use the Sealed Check page. It tells you if you are right without giving the answer away. Then open the Envelope (the separate solution file) for the full story.

Printing tip. Inside pages are mostly white to save ink. Print the Visitor Log single- or double-sided, black and white is fine. The evidence pages look best in colour. On a tablet, use the contents page or the bookmarks to jump around, and highlight visitors as you rule them out.

EMBERFIELD CONSTABULARY · 23 DECEMBER

The case

On the last night of the Ember Square Christmas Market, the snow came and went, the carousel turned, and six thousand visitors wandered between the stalls with mugs of punch warming their hands.

At 20:40 the market steward lifted the flap of the Judges' Tent and found Ambrose Thorne, head judge of the Great Gingerbread Contest for eleven years running, slumped over the judging table. His mug of mulled wine had been laced with something that was definitely not cinnamon.

Tickets for the final night sold out weeks ago. Every visitor wore a numbered wristband that was scanned once at the gate on the way in and used to pay at every stall. The ticket office has handed over the complete Visitor Log: 6,000 wristbands, one line each.

Detective Inspector Wren Ashdown needs your help. The killer is one of those 6,000 lines. Cross out every visitor who doesn't fit the evidence until only one remains.

What we know for certain

- The Visitor Log lists every visitor exactly once. No two visitors share a full name, and ticket numbers run from 0001 to 6000 with no gaps.
- Entry is the time the wristband was scanned at the gate. Gate is the gate it was scanned at.
- Last stall is the stall where the wristband made its final purchase of the night. Every visitor bought at least one thing.
- A crumpled receipt was found under the judging table. Forensics are certain the killer dropped it, and the till records confirm it was the killer's last purchase of the night.
- Pip Calloway, who runs the carousel, saw a visitor in a red bobble hat slip out of the Judges' Tent at about 20:05. Everyone who saw the red bobble hat that night was looking at the killer.

READ THESE ONCE

House rules

Every clue in this case uses the words below in exactly this sense. If a clue seems to have two meanings, this page decides.

Letters	Count letters only. Every name in the log is a single word with no spaces, hyphens or apostrophes. Home towns may be one word or two.
Vowels	A, E, I, O and U. In this case Y is always a consonant.
Double letter	The same letter twice in a row, like the LL in Bell. Letters that repeat but are not side by side (like the two Rs in Garner) do not count.
Times	All times are 24-hour clock on 23 December. “19:48 or earlier” includes 19:48 itself. A time range such as 17:05–17:30 includes both the first and the last minute.
Minutes	The minutes of 18:07 are 07, which is odd. The minutes of 19:40 are 40, which is even.
Ticket digits	Add the four digits as printed: ticket 0472 gives $0+4+7+2 = 13$.
Stalls	Stall numbers, names, lanes and what each stall sells are on the market map and in the stall directory.

Market map

The map shows the layout of the 2019 Christmas Market. The market is a rectangular area with four gates: North Gate (top), South Gate (bottom), West Gate (left), and East Gate (right). The layout is divided into several sections:

- Holly Lane:** A row of 9 stalls at the top, numbered 1 to 9.
- Gingerbread Walk:** A row of 9 stalls in the middle, numbered 10 to 18.
- Candle Row:** A row of 9 stalls at the bottom, numbered 19 to 27.
- Evergreen Court:** A row of 9 stalls at the very bottom, numbered 28 to 36.

Other features include:

- Great Fir:** A large Christmas tree in the center.
- Bandstand:** A circular area to the left of the Great Fir.
- Carousel:** A circular area to the right of the Great Fir.
- Judges' Tent:** A triangular tent to the right of the Great Fir.
- Market Stop:** A small building at the North Gate.
- Footbridges:** Two footbridges, one at the South Gate and one at the East Gate.
- River Ember:** The river is shown on the left and right sides of the map.
- Directions:** Arrows indicate directions to Castle Road, Mill Lane, and the River.

MERRY CHRISTMAS!

Inspector –

I saw the one in the red bobble hat twice.

First when they came in: they hurried over

the footbridge and straight through the gate,

and it was snowing right then – flakes all

over that hat. Second time, about 5 past 8,

slipping out of the Judges’ Tent.

Hope that helps. – Pip (carousel)

EVIDENCE 6

Witness statements

EMBERFIELD CONSTABULARY · WITNESS STATEMENT

Taken 22:05

Marged Pryce, gate steward

At about 20:20 a visitor in a red bobble hat came to the lost-property desk asking whether anyone had handed in a green knitted mitten. Nobody had.

I started a lost-property form. They didn't give me a first name, but they spelled their surname out for me letter by letter. I remember writing it carefully because it had a double letter in it – the same letter twice, side by side.

They didn't wait for me to finish the form. They were off towards the Market Stop before I looked up.

Marged Pryce

EMBERFIELD CONSTABULARY · WITNESS STATEMENT

Taken 24 Dec, 07:40

Owen Tully, coach driver, Ember Valley Coaches

I drove the 21:15 from the Market Stop. A passenger in a red bobble hat got on at the last moment, out of breath.

They said they were going home and asked to be let off at their own town's stop. They got off along my route, I'm sure of that, but I couldn't tell you which stop – the coach was packed and I was watching the ice on the road.

YOUR WORKING

Detective's notes

CHECK YOUR ANSWER WITHOUT SPOILERS

The Sealed Check

Found your one remaining visitor? Do this sum with their details (a phone calculator is fine). It confirms the answer without printing the killer’s name anywhere in this case file.

- 1Take their ticket number and multiply it by 7.
- 2Count the letters in their first name and in their surname, and add both counts to the result.
- 3Look at the last three digits of the total.

Ticket number × 7 =

+ letters in first name =

+ letters in surname =

Last three digits =

If your last three digits are

011

you have caught the killer. Open the Envelope to read how it happened.

Not a match? Somewhere a visitor was kept or crossed out by mistake. The hints at the back can show you which clue to look at again.

STOP, DETECTIVE

Hints ahead

Three levels of help for every clue, each level on its own pages. Start with Level 1 and only go further if you need to. Nothing here names the killer.

- Level 1 — A gentle nudge · page 114
- Level 2 — A stronger push · page 115
- Level 3 — Nearly the answer · page 116

HINTS

Level 1 — A gentle nudge

- Clue 1

Count only the letters of the first name. Five letters is odd; six is even.
- Clue 2

Compare the two names of the same visitor, letter by letter count.
- Clue 3

Look only at the first letter of each name.
- Clue 4

Only the surname matters here, and Y never counts as a vowel.
- Clue 5

Look at the last letter of the first name.
- Clue 6

This one uses the ticket number column.
- Clue 7

Add the four digits of the ticket number together.
- Clue 8

Look at the last two digits of the entry time.
- Clue 9

Some home towns in the log are two words.
- Clue 10

Use the Last stall column.
- Clue 11

The market map and the stall directory show which stalls are on Holly Lane.
- Clue 12

Only the surname matters.
- Evidence A

Read Pip’s note again: what did the visitor cross on the way in?
- Evidence B

Pip says something about the weather at the moment the visitor came in.
- Evidence C

The receipt has a time on it. What does that tell you about when the killer arrived?
- Evidence D

The receipt shows what was bought, but the stall’s name is torn off.
- Evidence E

Read the coach driver’s statement: which coach did the visitor in the red hat take?
- Evidence F

Read the gate steward’s statement: what did she notice about the surname?

HINTS

Level 2 — A stronger push

- Clue 1

Short names are quick wins: Ida (3), Enid (4), Clara (5), Martha (6).
- Clue 2

If the two names are the same length, the surname is NOT longer, so that visitor is out.
- Clue 3

If both names start with the same letter, the surname does not come later, so that visitor is out.
- Clue 4

Count every vowel, even repeats: Bennett has E and E, which makes two.
- Clue 5

Names ending in Y (Molly, Percy) end with a consonant in this case, so they stay.
- Clue 6

2500 itself would still count.
- Clue 7

Ticket 0472 gives $0+4+7+2 = 13$, which is odd, so 0472 would stay.
- Clue 8

18:07 has minutes 07 (odd). 18:40 has minutes 40 (even).
- Clue 9

The two-word towns are Juniper Cross, Kestrel Bay, Sloe Green.
- Clue 10

Even means 2, 4, 6, 8 and so on.
- Clue 11

Holly Lane is the row of stalls 1–9.
- Clue 12

Upper or lower case doesn't matter: Oakes and Brook both contain an O.
- Evidence A

Find the footbridges on the market map. How many gates can you reach by footbridge?
- Evidence B

The weather log shows it snowed twice that evening.
- Evidence C

Nobody can buy punch at a stall before they have come through the gate.
- Evidence D

The receipt was the killer's last purchase, so their Last stall must sell that item. Check the stall directory.
- Evidence E

They got off at their own town's stop, somewhere along that coach's route. Find the route in the coach timetable.
- Evidence F

A double letter means the same letter twice, side by side, like LL in Bell or TT in Abbott.

HINTS

Level 3 — Nearly the answer

- Clue 1

Cross out every visitor whose first name has 2, 4, 6 or 8 letters.
- Clue 2

Keep a visitor only if their surname has at least one more letter than their first name.
- Clue 3

Keep a visitor only if the surname’s first letter is further along A to Z than the first name’s first letter (Ada Webb: W comes after A, so Ada stays).
- Clue 4

Keep a visitor only if their surname has exactly 2 of A, E, I, O, U. One vowel is out, three or more is out.
- Clue 5

Cross out every visitor whose first name ends in A, E, I, O or U.
- Clue 6

Cross out every visitor with ticket 0001 to 2499.
- Clue 7

Cross out every visitor whose ticket digits add up to an even number.
- Clue 8

Cross out every visitor whose entry time ends in 0, 2, 4, 6 or 8.
- Clue 9

Cross out every visitor from Juniper Cross, Kestrel Bay, Sloe Green.
- Clue 10

Cross out every visitor whose last stall number is odd.
- Clue 11

Cross out every visitor whose last stall is 1, 2, 3, 4, 5, 6, 7, 8 or 9.
- Clue 12

Cross out every visitor whose surname contains the letter O.
- Evidence A

The footbridges lead to the East Gate and the South Gate. Cross out every visitor who came in through the North Gate or the West Gate.
- Evidence B

It snowed 17:05–17:30 and 18:40–19:55. Cross out every visitor whose entry time is outside both of those windows. Because the log is sorted by entry time, you can cross out whole pages.
- Evidence C

The receipt says 19:48. Cross out every visitor who came in at 19:49 or later.
- Evidence D

QUIETCLUECO

Thank you, detective

Thank you for spending an evening at Ember Square. We hope the snow, the punch and the red bobble hat kept you guessing.

Every case from QuietClueCo is written and drawn by hand, and checked by a computer program before it reaches you: the program confirms there is exactly one answer, that every clue is needed, and that the answer does not change if a clue is read in a slightly different way.

If you enjoyed the case, a short review helps other detectives find us.
